Your Comments: Your proposed "clean-up" is long over due for the Portland, Oregon Willamette River Super Fund Site. It is regretful it took so long and is so expensive but then so is CANCER. Not cleaning the river properly is an excuse for a willingness to do an inadequate job just like those who contaminated it. Please do your job properly so the people of Portland and the surrounding area can use it for recreation and as a food source without danger. Our native tribes are our river experts so it behooves you to co-operate and listen to them to clean up this Super Fund site QUICKLY AND THOROUGHLY!!! Your plan currently does not meet the standards necessary to make it safe for all of us.
